## NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and six months ended April 30, 2026 and 2025

(unaudited, expressed in Canadian dollars)

### 1. NATURE OF OPERATIONS AND GOING CONCERN

Roscan Gold Corporation (the “Company”) is an exploration stage company involved in the business of acquiring, exploring and developing gold properties in West Africa. The Company’s properties are located in Mali. The Company’s shares are listed on the TSX Venture Exchange under the trading symbol “ROS”, on the Frankfurt Stock Exchange under the trading symbol “2OJ” and on the United States OTCQB Venture Market under the symbol “RCGCF”. The Company was incorporated under the Business Corporations Act (Ontario) on June 15, 1987 and the address of the Company’s head office and registered office is 217 Queen Street West, Suite 401, Toronto, ON, Canada M5V 0R2.

#### **New Mining Code**

In August 2023, Mali’s interim government adopted a new mining code and as part of their review of the mining sector, suspended the issuance and renewals of permits and exploration licenses.

Following approval of the Implementation Decree by the Council of Ministers and the President, the new mining code is now functional. Subsequently a number of agreements have been publicly announced by the government and operating mining companies.

On March 10, 2025, the Mali Government announced the partial lifting of the suspension on processing applications related to mining titles. The Company sees this as a major de-risking event for the Kandiolé Gold Project. On September 22, 2025, the Company announced that it has received formal approval from the Council of Ministers of Mali for the renewal of its key exploration permits.

#### **Mali Coup**

In August 2020 and again in May 2021, a coup was staged by Mali’s military resulting in the dissolution of the Malian government. Mali is currently being governed by a transitional government. The Company’s exploration activities have not been disrupted. It should be noted that the Mali capital, Bamako, the centre of the political transition, is over 600 kilometres from its exploration site.

The Company’s Malian properties may potentially expose the Company to risks and different considerations not normally associated with companies or exploration activities in North America. The Company’s ability to retain its properties, raise and deploy capital may be adversely affected by changes in governing regimes, policies, laws and regulations, all of which are beyond the Company’s control.

#### **Going Concern**

The business of exploration, development and mining of minerals involves a high degree of risk and there can be no assurances that future exploration activities will result in the discovery of economically recoverable mineral deposits. The success and continuation of the Company as a going concern is dependent upon the Company’s ability to arrange financing, which in part, depends on prevailing market conditions, acquiring or discovering economically viable mineral properties, exploration success, and securing title and beneficial interest in its properties.

Further funds will be required for the Company to continue as a going concern, fulfil its obligations and fund its activities. The Company does not produce revenues from its exploration activities or have a regular source of cash flow. There can be no assurance that the Company will be able to obtain sufficient financing in the future or at favourable terms.

As of April 30, 2026, the Company had a working capital deficit of \$4,667,435 (October 31, 2025 - \$2,978,076 deficit), incurred a loss for the current six-month period of \$3,592,513 (2025 - \$1,310,885 loss), and had an accumulated deficit of \$93,565,602 (October 31, 2025 - \$89,973,089 deficit). On December 2, 2022, the Company raised additional net proceeds of \$4,880,000 from the sale of a 1.0% net smelter return royalty (“NSR”) to Osisko Gold Royalties Ltd. (“Osisko”). Upon receipt of an exploitation licence issued by the Malian government, the Company has the right to compel Osisko to acquire an additional 1% NSR by paying an additional \$5 million (note 12).

## NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and six months ended April 30, 2026 and 2025

*(unaudited, expressed in Canadian dollars)*

---

These unaudited condensed interim consolidated financial statements have been prepared using accounting principles applicable to a going concern, which assume that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations. However, due to uncertainties surrounding a number of factors, such as, but not limited to, the ability to raise additional funds, ability to acquire mineral properties, exploration results, prices of underlying commodities, investor sentiment and financial market conditions, it is not possible to predict if this assumption will prove to be accurate. These factors indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern.

These consolidated financial statements do not include the necessary adjustments to reflect the recoverability and classification of recorded assets and liabilities and related expenses that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

## 2. BASIS OF PREPARATION

### Statement of Compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of condensed interim consolidated financial statements, including International Accounting Standards ("IAS") 34, Interim Financial Reporting, and their interpretations issued by the IFRS Interpretations Committee ("IFRIC") which have been consistently applied. The accounting policies used in these condensed interim consolidated financial statements are consistent with those disclosed in the Company's audited consolidated financial statements for the year ended October 31, 2025.

These consolidated financial statements for the six-month period ended April 30, 2026, were approved and authorized for issue by the Company's board of directors on June 29, 2026.

### Basis of Consolidation and Presentation

These consolidated financial statements include the accounts of the Company and its wholly owned Malian subsidiaries, Roscan Gold Mali SARL and Komet Mali SARL. All significant inter-company transactions and balances have been eliminated on consolidation.

These consolidated financial statements are prepared on the historical cost basis, except for financial instruments classified as fair value through profit and loss. These consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency. The functional currency of the Company's two Malian subsidiaries is the Canadian dollar.

These unaudited interim consolidated financial statements do not include all of the disclosure required in annual financial statements and should be read in conjunction with the Company's 2025 audited annual consolidated financial statements. These consolidated financial statements are not necessarily indicative of the results that may be anticipated for the entire fiscal year.

## 3. ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements, in conformity with IFRS, requires the Company's management to make certain estimates and judgements that they consider reasonable and realistic. These estimates and judgements are based on historical experience, future expectations, economic conditions and other factors. Despite regular reviews, changes in

---

circumstances and assumptions may result in changes in these estimates and judgements, which could materially impact the reported amount of the Company's assets, liabilities, equity or earnings. By their nature, estimates and judgements are subject to measurement uncertainty and actual results could vary from estimates.

Significant estimates relate to:

- measurement of share-based payments and warrant valuations;
- measurement of shares issued to acquire mineral properties;
- recognition and measurement of convertible debentures;
- establishment of provisions; and,
- recognition of deferred tax assets.

Significant judgements relate to:

- ability to continue as a going concern;
- presentation of the components of the convertible debentures;
- functional currency of the Company and its subsidiaries;
- ability to retain exploration and evaluation permits: and,
- exploration and evaluation accounting policy.

#### 4. MATERIAL ACCOUNTING POLICIES

The Company's material accounting policies, as described in Note 4 of the Company's audited consolidated financial statements for the year ended October 31, 2025, have been applied consistently to all periods presented in these financial statements, unless otherwise noted.

#### 5. NEW STANDARDS AND INTERPRETATIONS ISSUED

For the six-month period ended April 30, 2026, the Company has not yet adopted new accounting standards.

**Future standards not yet adopted:** In April 2024, the IASB issued IFRS 18 Presentation and Disclosure in Financial Statements to improve reporting of financial performance. The new standard replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new categories and required subtotals in the statement of profit and loss and also requires disclosure of management-defined performance measures. It also includes new requirements for the location, aggregation and disaggregation of financial information. The standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements. Retrospective application is required, and early adoption is permitted. The Company is currently evaluating the impacts of adopting this standard on its financial statements.

#### 6. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern; and, to have sufficient capital to fund the exploration and development of its mineral properties and the acquisition of other mineral properties for the benefit of its shareholders.

The Company considers its capital structure to consist of convertible debentures and shareholder equity, comprising issued common shares, promissory notes, convertible debentures, contributed surplus and deficit. In order to maintain its capital structure, the Company is dependent on equity funding and loans from related parties and investors. Equity instruments used for funding include common shares, warrants and incentive stock options. Debt instruments used for

funding include fixed-term loans and convertible debentures. The Board of Directors does not establish quantitative targets on its capital criteria for management, however, it relies on management to review its capital management methods and requirements on an ongoing basis and make adjustments as required.

There were no changes in the Company's management of its capital as a result of funding through convertible debentures during the current three-month period. The Company is not subject to any externally imposed capital requirements.

### 7. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	April 30, 2026	October 31, 2025
Trade payables	\$1,568,883	\$1,616,657

	<b>\$2,097,077</b>	<b>\$1,950,243</b>

### 8. CONVERTIBLE DEBENTURES

The Company had four secured subordinated convertible debt instruments outstanding at April 30, 2026, with the following key terms:

Note/Debenture	Principal	Conversion Price	Maturity	Coupon Rate	Effective Interest Rate
\$1.0M note	\$1,000,000	\$0.11	September 11, 2026	12%	14.5%

\$1.5M note	1,500,000	0.20	March 2, 2027	12%	14.5%

(i) Held by a director of the Company.

The \$1.0M note's maturity was extended on September 11, 2024 and again on September 11, 2025, and the \$300K note's on September 11, 2025; both now mature on September 11, 2026. Each extension was accounted for as a non-substantial modification under IFRS 9, resulting in modification gains of \$44,628 and \$7,976, respectively. The \$1.505M debenture and \$1.5M note were issued on January 29 and March 2, 2026 and bifurcated into liability and equity components; equity components of \$32,860 and \$32,751 were recorded in reserves, and \$80,699 of the \$1.5M note's \$82,500 of transaction costs was allocated to the liability component.

#### Share-Based Payments

The Company has a stock option plan, a restricted share unit plan (RSU), a performance share unit (PSU) and a deferred share unit plan (DSU) to provide additional incentives to directors, officers, employees and consultants. On March 21, 2022, the Company adopted the Omnibus Long-Term Incentive Plan (LTIP) pursuant to which the Company may grant RSUs and PSUs to its directors, officers, employees and consultants based on the Company's share price on the date of grant.

Under the terms of the Company's stock option and RSU/PSU/DSU plans (the "Plans"), the Company is authorized to issue up to a maximum of 10% of the issued common shares with an exercise period that is not to exceed ten years. The term, exercise price and vesting conditions of the options, RSUs, PSUs and DSUs are fixed by the Board of Directors at the time of grant. All issued stock options were granted in accordance with the terms of the Plan.

Under the Plans, the Company is authorized to issue up to a maximum of 10% of the issued and outstanding common shares with an exercise period not to exceed ten years. The term, exercise price and vesting conditions are fixed by the Board of Directors at the time of grant. On April 30, 2026, the Company had 9,516,470 (October 31, 2025 – 23,566,471) common shares available for future grants under the Plans.

### Kandiolé Project – Mali

The Kandiolé Project is comprised of nine contiguous gold prospective permits, encompassing approximately 373 sq. kilometres, located within the Kéniéba “Cercle”, an administrative sub-area of the Kayes Region, approximately 400 kilometres west of Bamako, the capital of Mali in West Africa.

On March 2, 2026, the Company announced the results of a positive Preliminary Economic Assessment (the “PEA”) for the Kandiolé Project, prepared by Bara Consulting (UK) Limited in accordance with NI 43-101 (effective date of the PEA February 27, 2026). The PEA evaluates a conventional open-pit mining operation feeding a centralized carbon-in-leach plant, and indicates an after-tax net present value (5% discount) of US\$498 million, an internal rate of return of 43% and a payback of 2.8 years at a base-case gold price of US\$3,100 per ounce, with life-of-mine production of approximately 835,000 ounces of gold over an approximately 13-year mine life. The updated Mineral Resource Estimate (effective February 19, 2026) comprises Indicated Mineral Resources of 58.2 Mt at 0.68 g/t Au (1.283 million ounces) and Inferred Mineral Resources of 5.6 Mt at 0.52 g/t Au (0.09 million ounces). The supporting NI 43-101 Technical Report was filed on SEDAR+ on April 16, 2026. The PEA is preliminary in nature and includes Inferred Mineral Resources that are considered too speculative geologically to be classified as Mineral Reserves; there is no certainty that the results of the PEA will be realized.

The following table lists the claims that make up the Kandiolé project along with the permitting status. 100% of the project’s currently defined gold resources are located within the Kandiolé North permit area that was recently renewed.

Permit	Area (sq kms)	Status	Renewal / Expiration Date

(i) The Dabia South permit expired on February 3, 2025. As the permit had reached its final renewal stage, an extension request was submitted to integrate the Dabia South area into the Kandiolé North permit. This request was approved by the Council of Ministers on March 18, 2026, for a combined area of 63.4 km<sup>2</sup>.

(ii) In November 2022, the Kandiolé North and the Mankouke permits were merged. The Kandiolé North permit was subsequently renewed by Decree No. 2025-0676 dated October 3, 2025; however, in accordance with the mining code, the permit area was reduced by 50% to 28.4 km<sup>2</sup> during the renewal. Following the integration of the Dabia South area approved on March 18, 2026, the combined permit area is 63.4 km<sup>2</sup>.

(iii) The Kandiolé West permit expired on June 13, 2024, and the renewal of the permit is pending.

(iv) The Mankouke West permit expired on March 25, 2024, and the renewal of the permit is pending.

(v) The Moussala North permit expired on April 6, 2023, and the renewal of the permit is pending.

(vi) The Niala permit expired on May 23, 2024, and the renewal of the permit is pending.

(vii) The Segondo South permit expired on January 21, 2025, and the renewal of the permit is pending.

(viii) The Bantanko East permit expired on March 2, 2024, and the renewal of the permit is pending.

(ix) The option to acquire Segondo West was exercised in February 2023, but the permit expired on March 20, 2023. The transfer and renewal of the permit is pending.

### Option Agreements - Exercised

During fiscal 2021, the Company completed its option agreement obligations to acquire the Kandiolé North, Kandiolé West, Mankouke, Mankouke West, Moussala, Niala and Segundo South permits, of which six of these seven permits have been transferred to the Company with the transfer of the Mankouke West permit pending. By February 2023, the Company completed its option agreement obligations to acquire the Segundo West permit and the transfer of the permit is currently pending.

#### A) Kandiolé North – permit transferred

In November 2022, Kandiolé North (40 sq. kms.) and Mankouke (17 sq. kms.) were merged into one permit with no change in the total area, resulting in Kandiolé North becoming the surviving permit.

##### Kandiolé North

The Company acquired Kandiolé North pursuant to an option agreement (dated June 4, 2018, with an effective date of November 3, 2017) with Touba Mining Junior SARL (“Touba”). Touba retained a 5% net profit interest (“NPI”) and a 2% net smelter return royalty (“NSR”) on all ore mined from the property. The Company has the right to purchase one-half of the NSR (equivalent to a 1% NSR) for \$1,000,000. Touba assigned its option rights under its agreement with Ouani-Or SARL to the Company.

##### Mankouke

The Company acquired Mankouke pursuant to an option agreement (dated June 22, 2018) with Minex SARL (“Minex”). Minex retained a 3% NSR on all ore mined from the property. The Company has the right to purchase two-thirds of the NSR (equivalent to a 2% NSR) for US\$1,000,000.

#### B) Kandiolé West – permit transferred

The Company acquired Kandiolé West pursuant to an option agreement (dated June 4, 2018, with an effective date of November 3, 2017) with Touba. Touba retained a 5% NPI and a 2% NSR on all ore mined from the property. The Company has the right to purchase one-half of the NSR (equivalent to a 1% NSR) for \$1,000,000. Touba assigned its option rights under its agreement with Kara Mining SARL to the Company.

#### C) Mankouke West – transfer of permit is pending

The Company acquired Mankouke West pursuant to an option agreement (dated March 22, 2021) with Touba. Touba retained a 1% NSR on all ore mined from the property. The Company has the right to purchase the entire NSR for CDN \$1 million.

#### D) Moussala North and Segundo South – permits transferred

The Company acquired Moussala North and Segundo South pursuant to option agreements (each dated March 31, 2018) with K.L. Mining and K.A Gold Mining (collectively, the “Optionor”). The Optionor retained a 2% NSR on all ore mined from the property. The Company has the right to purchase one-half of the NSR (equivalent to a 1% NSR) for US\$1,200,000.

#### E) Niala – permit transferred

The Company acquired Niala pursuant to an option agreement (dated April 27, 2018) with SOLF SARL (“SOLF”). SOLF retained a 2% NSR on all ore mined from the property. The Company has the right to purchase one-half of the NSR (equivalent to a 1% NSR) for \$500,000.

#### F) Segundo West Option Agreement – transfer of permit is pending

The Company has completed its option agreement obligations as follows:

- (a) Paid SO.FI.SI Mining SARL (“SO.FI.SI”) an aggregate of 65,000,000 CFA francs (CDN \$144,171), as follows:
  - 10,000,000 FCFA (CDN \$23,410) on signing (paid);

(unaudited, expressed in Canadian dollars)

---

- 20,000,000 FCFA (CDN \$43,985) by February 5, 2022 (paid); and,
  - 35,000,000 FCFA (CDN \$76,776) by February 5, 2023 (paid).
- (b) Incurred an aggregate of 160,000,000 CFA Francs (approximately CDN \$354,000) in exploration expenditures over the option period, as follows:
- 50,000,000 FCFA by February 5, 2022 (completed); and,
  - 110,000,000 FCFA by February 5, 2023 (completed).

SO.FI.SI retains a 2% NSR on all ore mined from the property. The Company has the right to purchase one-half of the NSR (equivalent to a 1% NSR) for 450,000,000 CFA francs (approximately CDN \$1,030,000).

### Option Agreements – Exercise pending

Subject to the Company completing its option agreement obligations, the Company has the right to acquire a 100% interest in the two privately held gold prospective permits, as further described below.

#### G) Bantanko East Option Agreement – effective April 7, 2021

To exercise the option the Company shall:

- (c) pay Harmattan Consulting SARL (“Harmattan”), an aggregate of 115,000,000 CFA francs (approximately CDN \$261,250), as follows:
- 20,000,000 FCFA (CDN \$45,622) on signing (paid);
  - 27,500,000 FCFA (CDN \$57,184) by April 7, 2022 (paid);
  - 30,000,000 FCFA (CDN \$66,315) by April 7, 2023 (paid on May 11, 2023, as agreed by Harmattan); and
  - 37,500,000 FCFA (approximately CDN \$92,130), upon the submission of the documentation to transfer the permit to the Company.
- (d) issue to Harmattan an aggregate of 115,000,000 CFA Francs (approximately CDN \$262,550) in common shares of the Company based on the closing market price preceding the share issuance date, as follows:
- 20,000,000 FCFA (CDN \$46,273) of shares on signing (90,731 shares issued);
  - 27,500,000 FCFA (CDN \$56,898) of shares by April 7, 2022 (167,347 shares issued);
  - 30,000,000 FCFA (CDN \$67,248) of shares by April 7, 2023 (353,937 shares issued);
  - 37,500,000 FCFA (approximately CDN \$92,130) of shares upon the submission of the documentation to transfer of the permit to the Company (approximately 575,810 shares).
- (e) incur an aggregate of 191,000,000 CFA francs (approximately CDN \$427,900) in exploration expenditures over the option period, as follows:
- 44,000,000 FCFA by April 7, 2022 (completed); and,
  - 147,000,000 FCFA by April 7, 2023 (completed).

Note: Future commitments are based on April 30, 2026: exchange rates of 407 FCFA: \$1 for Canadian denominated amounts; and a closing share price of CDN \$0.16. In conjunction with the property being placed into production, the Company shall incorporate an operating company and issue to Harmattan, within 30 days of the date of commencement of production, US\$1,000,000 in common shares of the operating company. If a bankable feasibility study is prepared by the Company and the study reveals proven gold reserves equivalent to more than 1,000,000 oz, the Company shall provide: (i) Harmattan with the results of the study; and, (ii) issue to Harmattan, within thirty (30) days of receipt of such study, US\$1,000,000 in common shares of the Company. Harmattan retains a two percent (2%) NSR on all ore mined from the property. The Company has the right to purchase one-half of the NSR (equivalent to a 1% NSR) for US \$1,000,000.

### 12. SALE OF NET SMELTER RETURN ROYALTY

On December 2, 2022, the Company entered into a royalty financing agreement (the “Royalty Agreement”) with Osisko Gold Royalties Ltd. (“Osisko”), whereby Osisko paid the Company \$5 million to acquire an initial 1.0% net smelter return royalty (“NSR”) in the properties that comprise the Company’s Kandiolé Project. In addition, Osisko retains the option to acquire an additional 1% NSR (the “Additional Royalty”) in the Kandiolé Project properties, at any time, by paying another \$5 million. The Company has the right to compel Osisko to acquire the Additional Royalty upon receipt of an exploitation licence issued by the Malian government in accordance with its mining codes or laws.

Osisko retains a right of first offer (“ROFO”) and a right of first refusal (“ROFR”) pertaining to the sale of future royalties on current Kandiolé Project properties and on properties that are subsequently acquired that are contiguous or complementary. As well, Osisko holds a ROFO and ROFR on the sale of streaming interests and on the Company’s buyback rights on pre-existing royalties attached to the Kandiolé Project properties. To secure its obligations under the Royalty Agreement, the Company pledged its shareholdings in its subsidiaries, Roscan Gold Mali SARL and Komet Mali SARL. The Company incurred advisory fees of \$120,000 related to this agreement.

### 13. RELATED PARTY TRANSACTIONS AND BALANCES

A summary of the compensation of key management (directors/officers) of the Company is included in the table below. Key management are those persons having authority and responsibility for planning, directing and controlling activities, directly or indirectly, of the Company.

	Three months ended April 30		Six months ended April 30	
	2026	2025	2026	2025
Management fees (i)	\$138,167	\$127,500	\$265,667	\$255,000
Share-based payments (ii)	791,178	73,069	818,312	146,653
	<b>\$929,345</b>	<b>\$200,569</b>	<b>\$1,083,979</b>	<b>\$401,653</b>

- (i) Management fees were paid or became payable for the services of Company officers.
- (ii) Share-based payments represent the fair value assigned to stock options, restricted share units and performance share units granted to Company directors/officers. Share-based payments related to stock options granted to consultants are not included.

Loans due to related parties balance of \$nil (October 31, 2025 - \$475,000) consisted of cash loans provided by a director and a company controlled by a Company director/officer. These loans were non-interest bearing, unsecured and due on demand, and were subscribed as a related party transaction on January 29, 2026 for an aggregate of \$475,000 principal amount of convertible promissory notes (note 8) during the six-month period ended April 30, 2026.

Accounts payable and accrued liabilities include \$nil (October 31, 2025 - \$117,436) payable to Company directors/officers or companies controlled by or associated with Company directors/officers. During the three months ended April 30, 2026, the Company’s Malian subsidiary, Roscan Gold Mali SARL, received 52,000,000 FCFA (C\$126,568) from Touba Mining Junior SARL, a company controlled by a member of the Company’s Mali management. Pending the receipt of additional documentation, it has been recorded as at April 30, 2026 as a payable to a related party. No amount has been recognized in profit or loss in respect of this transaction.

### 14. COMMITMENTS AND CONTINGENCIES

The Company currently has a management services agreement with one Company officer that contains the provision of termination and change of control benefits. The agreement provides that in the event that the officer's services are terminated by the Company, other than for cause, or there is a change in control of the Company, the officer shall be entitled to a lump sum payment amount equal to two (2) years of base remuneration, plus any unpaid bonus plus the average of the bonus paid to the officer over the previous (2) years, but prior to the third year of service. The Company has an agreement with a consultant, which provides that if the consultant's services are terminated by the Company, other than for cause, or there is a change in control of the Company, the consultant shall be entitled to a lump sum payment amount equal to two (2) years of base remuneration plus one (1) month of current compensation for each year of service, effective April 1, 2019. As a triggering event has not taken place, the contingent payments of \$965,700 (October 31, 2025 - \$1,123,600) have not been reflected in these consolidated financial statements.

### 15. LOSS PER SHARE

Loss per share is calculated using the weighted average number of shares outstanding for the period. For the purposes of calculating the basic and diluted loss per share the effect of the potentially dilutive options, warrants, RSUs, PSUs and convertible debentures were not included in the calculation for the three and six-month period ended April 30, 2026 and 2025, as the result would be anti-dilutive.

### 16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

#### Fair Value

The carrying value of cash, accounts payable and accrued liabilities, convertible debentures and loans due to related parties approximates fair value due to the relative short-term maturity of these financial instruments. Fair value represents the amount that would be exchanged in an arm's-length transaction between willing parties and is best evidenced by a quoted market price if one exists.

IFRS 7 establishes a fair value hierarchy that prioritizes the valuation techniques for each financial instrument measured at fair value. Fair value amounts represent point-in-time estimates and may not reflect fair value in the future. The measurements are subjective in nature, involve uncertainties and are a matter of significant judgement.

The methods and assumptions used to develop fair value measurements are: Level 1 - includes quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 - includes inputs, other than quoted prices included in Level 1, that are observable for an asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and, Level 3 - includes inputs that are not based on observable data.

**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS****For the three and six months ended April 30, 2026 and 2025***(unaudited, expressed in Canadian dollars)*

---

**Risk Management**

The primary objectives of the Company's financial risk management procedures are to ensure that the outcome of activities involving elements of risk are consistent with the Company's objectives and risk tolerance, while maintaining an appropriate risk/reward balance and protecting the Company's financial position, from events that have the potential to materially impair its financial strength. These activities include the preservation of its capital by minimizing risk related to its cash. The Company does not trade financial instruments for speculative purposes and does not have a risk management committee or written risk management policies. The Company's financial instruments are exposed to the risks described below:

**Credit Risk**

Credit risk is the risk of financial loss to the Company, if one party to a financial instrument fails to discharge or meet their obligations. Financial instruments that potentially expose the Company to this risk relate to its cash, which is primarily held at a Canadian banking institution and sales tax receivables due from the Canadian government.

**Currency Risk**

The Company operates in Canada and Mali and has potential future commitments in Mali that are denominated in the West African CFA franc (FCFA), the Euro (EUR) and the United States dollar (USD), giving rise to market risks from changes in foreign exchange rates. The Company monitors foreign exchange rates on an as needed basis. As at April 30, 2026, a 10% change in the USD or the EUR exchange rate would impact the Company's loss by approximately \$26,318 (October 31, 2025 - \$27,079) and \$95,292 (October 31, 2025 - \$84,534), respectively.

**Interest Rate Risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in interest rates. The Company's excess cash is invested in financial instruments that provide safety and flexibility for early redemption. The Company's excess cash is subject to interest rate risk resulting from fluctuations in prime rates. The Company is exposed to interest rate price risk as all convertible debentures bear interest at a fixed rate.

**Liquidity Risk**

Liquidity risk management requires maintaining sufficient cash, liquid investments or credit facilities to meet the Company's operating expenditures and commitments, as they become due. The Company manages liquidity risk through the management of its capital structure as described in Note 6. The Company does not have any income from operations or a regular source of income and is highly dependent on its working capital and equity and debt funding to support its exploration and corporate activities. There can be no assurance that the Company will be successful in its fundraising activities.

As at April 30, 2026, the Company had cash of \$1,403,175 (October 31, 2025 - \$526,822) to settle current liabilities of \$6,262,986 (October 31, 2025 - \$3,679,845). The Company will require additional capital to fully fund its 2026 and beyond exploration activities.

**17. SUBSEQUENT EVENTS**

The Company's application for a mining (exploitation) permit for the Kandiolé Project is in the final stages of review with the Malian authorities. Subsequent to April 30, 2026, the Company, through its Malian subsidiary Roscan Gold Mali SARL, paid the exploitation permit fee of 100,000,000 FCFA (approximately C\$243,000) for the Kandiolé Project.

The Company has initiated project financing discussions in connection with the development of the project.
